## We Protect Your Assets

### PROVIDING END-TO-END FIRE SAFETY SOLUTIONS.

We are a renowned player in the Indian market

offering a wide range of fire protection equipment, such as Fire Suppression Systems, Tube Suppression System, Fire Extinguishers and related systems.

We have pioneered safety through innovative and best-in-class products. At Detect Fire, we believe in integrity, transparency, respect and delivering the highest quality, on time!

### OUR PRODUCTS AND SERVICES

- ★ Fire Extinguishers
- ★ Fire Fighting System
- ★ Tube Suppression System
- ★ Fire Alarm Systems
- ★ Co<sub>2</sub> Flooding System
- ★ We are Supplier and Re-filler of all types fire extinguisher,
- ★ Entire range of fire fighting equipments & Industrial safety items,
- ★ Annual maintenance contract for fire - protection system.

# Ceiling Mounted Automatic Powder Base Fire Extinguishers

Ceiling Mounted Automatic, Fire Extinguisher is the most powerful. This ABC fire extinguisher is activate automatically, spraying with maximum Force, ensuring that the fire is brought under control rapidly and Efficiently. This ABC fire extinguisher is suitable for Fire of Paper, Wood, Cloth, Flammable liquids (Petrol, Kerosene, Paints) Gases (LPG, Acetylene) & Electrically started

Capacity (Kg)	2, 4, 5, 6 & 10.
Extinguishing Media	ABC Dry Powder
Minimum Effective Discharge	95%
Discharge Time	Not Less than 10 sec.
Test Pressure (Kgf/cm <sup>2</sup> )	30 Kgf/cm <sup>2</sup>
Charged Pressure (Kgf/cm <sup>2</sup> )	15 Kgf/cm <sup>2</sup>
Temperature Range	(-) 20 C to (+) 55 C.
Operating Value	Automatically at 68 C
Effective against	A, B, C electrically started fires.

# Powder Portable Fire Extinguishers (Stored Pressure)

One of the most powerful & efficient Fire Extinguisher in the market. This ABC stored pressure fire extinguisher is suitable for Fire of Paper, Wood, Cloth, Flammable liquids (Petrol, Kerosene, Paints) Gases (LPG, Acetylene) & Electrical. You Can fight with any type of fire

Capacity (Kg)	1, 2, 3, 4, 5, 6 & 9.
Confirming IS Code	IS 15683 : 2006
Extinguishing Media	Dry Powder IS 14609.
Minimum Effective Discharge	85%
Discharge Time	Not Less than 13 sec.
Test Pressure (Kgf/cm <sup>2</sup> )	35 Kgf/cm <sup>2</sup>
Charged Pressure (Kgf/cm <sup>2</sup> )	15 Kgf/cm <sup>2</sup>
Temperature Range	(-) 20 C to (+) 55 C.
Operating Value	Squeeze Grip type with Nozzle or Hose Pipe.
Available in	MAP 50, 70 & 90.
Effective against	A, B, C & electrically started fires.

# Clean Agent Portable Fire Extinguishers

Clean Agent is most powerful, Eco Friendly Fire Extinguisher. This ABC fire extinguisher is suitable for fire of Paper, Wood, Cloth, Flammable liquids (Petrol, Kerosene, Paints), Gases (LPG, Acetylene) & Electrically started fire. You can fight with any type of fire.

Capacity (Kg)	2, 4 & 6.
Extinguishing Media	HCFC 123
Minimum Effective Discharge	95%
Discharge Time	Not Less than 13 sec.
Test Pressure (Kgf/cm <sup>2</sup> )	35 Kgf/cm <sup>2</sup>
Charged Pressure (Kgf/cm <sup>2</sup> )	15 Kgf/cm <sup>2</sup>
Temperature Range	(-) 20 C to (+) 55 C.
Operating Value	Squeeze Grip type with Nozzle Hose Pipe.
Effective against	A, B, C & electrically started fires.

## Carbon Di-oxide Portable Fire Extinguishers

Our Co<sub>2</sub>, is most powerful & efficient Fire Extinguisher in the market This B, C fire, extinguisher is suitable for fire of Flammable liquids (Petrol, Kerosene, Paints), Gases (LPG, Acetylene) & Electrical started fire. The revolutionary new squeeze grip activation, removes all risk of freeze burn ensure that the user can rapidly put the extinguisher to use against a fire.

Capacity (Kg)	2, 4.5 & 6 Kg.
Confirming IS Code	IS 15683 : 2006
Extinguishing Media	Carbon Di-oxide Gas
Minimum Effective Discharge	95%
Discharge Time	Not Less than 13 sec.
Body Tested (Kgf/cm <sup>2</sup> )	250 Kgf/cm <sup>2</sup>
Working Pressure (Kgf/cm <sup>2</sup> )	150 Kgf/cm <sup>2</sup>
Temperature Range	(-) 20 C to (+) 55 C.
Operating Value	Squeeze Grip type with wire braded
Effective against	Hose Pip& Band Horn B, C & electrically started fires.

## Mechanical Foam (AFFF) Fire Extinguishers (Stored Pressure/Gas Cartridge Type)

This Mechanical Foam (AFFF) Fire Extinguisher is suitable for use on burning liquids (Petrol, Kerosene, Paints) Gases (LPG, Acetylene). These extinguishes, use the squeeze grip mechanism, making them faster and easier to use. The proprietary stored pressure/Cartridge type technology also delivers high power throw, making these extinguishers extremely effective.

Capacity (Kg)	2, 4, 6 & 9 Kg.
Confirming IS Code	IS 15683 : 2006
Extinguishing Media	AFFF Foam IS 14609.
Minimum Effective Discharge	95%
Discharge Time	Not Less than 13 sec.
Test Pressure (Kgf/cm <sup>2</sup> )	35 Kgf/cm <sup>2</sup>
Charged Pressure (Kgf/cm <sup>2</sup> )	15 Kgf/cm <sup>2</sup>
Temperature Range	(-) 5 C to (+) 55 C.
Operating Value	Squeeze Grip type with Nozzle or
Effective against	Hose Pipe. A and B Fire. Do not use at Electrically started Fires.

## Fire Alarm System

DETECTFIRE is one of the trustworthy suppliers of Fire Alarms. We offer the most superior fire alarm system which is appreciated by clients across India. Robust construction, precision design, and easy installation are its USP.
